

imports of large newspaper printing presses are being, or are likely to be, sold at less than fair value. If it becomes necessary at a later date to consider these petitions as a source of facts available under section 776 of the Act, we may review further the calculations.

Initiation of Investigations

We have examined the petitions on large newspaper printing presses from Germany and Japan and have found that they meet the requirements of section 732 of the Act, including the requirements concerning allegations of the material injury or threat of material injury to the domestic producers of a domestic like product by reason of the complained-of imports, allegedly sold at less than fair value. Therefore, pursuant to section 732(c)(2) of the Act, we are initiating antidumping duty investigations to determine whether imports of large newspaper printing presses from Germany and Japan are being, or are likely to be, sold in the United States at less than fair value. Unless extended, we will make our preliminary determinations by December 7, 1995.

Distribution of Copies of the Petitions

In accordance with section 732(b)(3)(A) of the Act, copies of the public versions of the petitions have been provided to the representatives of the governments of Germany and Japan. We will attempt to provide copies of the public versions of the petitions to all the exporters named in the petitions.

International Trade Commission (ITC) Notification

We have notified the ITC of our initiations, as required by section 732(d) of the Act.

Preliminary Determinations by the ITC

The ITC will determine by August 14, 1995, whether there is a reasonable indication that imports of large newspaper printing presses from Germany and Japan are materially injuring, or threaten material injury to, a U.S. industry. A negative ITC determination in either investigation will result in that investigation being terminated; otherwise, the investigations will proceed according to statutory and regulatory time limits.

Large Power Transformers From Japan; Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of preliminary results of antidumping duty administrative review.

SUMMARY: In response to a request by the petitioner, the Department of Commerce (the Department) is conducting an administrative review of the antidumping finding on large power transformers from Japan. The review covers exports of one manufacturer of this merchandise to the United States. The review period is June 1, 1993, through May 31, 1994. The review indicates that no shipments of the subject merchandise took place during the review period. Interested parties are invited to comment on these preliminary results.

EFFECTIVE DATE: July 27, 1995.

FOR FURTHER INFORMATION CONTACT: Andrea Chu, Kris Campbell, or Michael R. Rill, Office of Antidumping Compliance, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-4733.

SUPPLEMENTARY INFORMATION:

Background

On June 7, 1994, the Department published in the **Federal Register** a notice of "Opportunity to Request Administrative Review" (59 FR 29411) of the antidumping finding on large power transformers from Japan. In accordance with 19 CFR 353.22(a), the petitioner requested that the Department conduct an administrative review. We initiated the review on July 15, 1994 (59 FR 36160), covering the period June 1, 1993, through May 31, 1994. The Department is conducting this review in accordance with section 751 of the Tariff Act of 1930, as amended (the Tariff Act).

Scope of the Review

Imports covered by the review are shipments of large power transformers; that is, all types of transformers rated 10,000 kVA (kilovolt-amperes) or above, by whatever name designated, used in the generation, transmission, distribution, and utilization of electric power. The term "transformers" includes, but is not limited to, shunt

reactors, autotransformers, rectifier transformers, and power rectifier transformers.

Not included are combination units, commonly known as rectiformers, if the entire integrated assembly is imported in the same shipment and entered on the same entry and the assembly has been ordered and invoiced as a unit, without a separate price for the transformer portion of the assembly.

This merchandise is currently classifiable under the Harmonized Tariff Schedule (HTS) item numbers 8504.22.00, 8504.23.00, 8504.34.33, 8504.40.00, and 8504.50.00. The HTS item numbers are provided for convenience and Customs purposes. The written description remains dispositive.

The review covers one manufacturer/exporter of transformers, Fuji Electric Co., Ltd. (Fuji). The review period is June 1, 1993, through May 31, 1994.

Preliminary Results of Review

Fuji reported that it made no shipments to the U.S. during the period of review. The Department confirmed with the U.S. Customs Service that no subject merchandise exported by Fuji was entered into the United States during the period of review. Therefore, we preliminarily determine that there were no shipments subject to this review and that Fuji's cash deposit rate will continue to be 5.90 percent, which is the rate established in the final results of the last relevant review period in which Fuji made shipments.

Furthermore, the following deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided for by section 751(a)(1) of the Tariff Act: (1) For the reviewed company and previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (2) if the exporter is not a firm covered in this review, a prior review, or the original less-than-fair-value investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (3) the cash deposit rate for all other manufacturers or exporters is 10.63 percent (see **Federal Register** on August 23, 1993 (59 FR 44498)). These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

Any interested party may request a hearing within 10 days of publication of this notice. Any hearing, if requested, will be held approximately 44 days after the publication of this notice. Interested parties may submit written comments (case briefs) within 30 days of the date of publication of this notice. Rebuttal comments (rebuttal briefs), which must be limited to issues raised in the case briefs, may be filed not later than 37 days after the date of publication. The Department will publish a notice of final results of this administrative review, including the results of its analysis of issues raised in any such written comments.

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.22.

Dated: July 19, 1995.

Paul L. Joffe,

Deputy Assistant Secretary for Import Administration.
